Subject: Onsite mentoring visit for DH Balrampur

Dear Drs Rinku, Harish and Jyoti Sareen Madam

Greetings from NQOCN, India .

As you are aware the Infant Mortality Rate (41 per 1000 live births) in Uttar Pradesh is very high. Uttar Pradesh has a Maternal Mortality Ratio (MMR) of 201 per one lakh live births. While there has been a significant improvement in under five mortality and infant mortality rates in the recent years, the reduction in neonatal mortality rate has been very slow (30 per 1000 live birth). Government of Uttar Pradesh is implementing various activities/programmatic interventions to address this important issue, and these include quality care provision during intra-partum and immediate postpartum, Facility based newborn care, Home based newborn care and Immunization. UNICEF office support Govt. of Uttar Pradesh in providing supportive supervision for strengthening of LaQshya (24 districts), FBNC and HBNC Programmes in all 75 districts for addressing high neonatal and maternal mortality.

In this context, UNICEF organized a 2 days' workshop on Quality Improvement for Maternal and Neonatal Healthcare Delivery System for Quality Consultants, LR staff and SNCU staff of UP in two batches, 29-30 January and 3-4 May 2019 with the technical support of NQOCN, India. As a further step in the same direction, it is planned to optimally utilize the knowledge gained and implement QI activities in the facilities, NQOCN will conduct mentoring visits to the selected facilities along with the UNICEF and NHM Quality Consultants of NHM from neighbouring districts.

NQOCN team will conduct the onsite mentoring visits to the district hospitals of Shrawasti, Balrampur and Sonbhadra in teams consisting of 3 coaches for each district (one nurse mentor, one QI doctor coach and one QI Obstetric Coach). The team will be accompanied by UNICEF and NHM Quality Consultants of NHM from neighboring districts. **The onboard team will be conducting onsite mentoring for the aforementioned districts at a frequency of 4-6 weeks (total of 3 visits till Dec 2019). The teams will initially undertake to capacity build the DH teams in QI and undertake one demonstration LaQshya QI project which will be conducted over 8-10 weeks and sustained for 4 weeks during the course of this project.** This will serve to build the capacity of teams in conducting the 6 QICs as envisaged in the LaQshya program.

The main activities in each onsite visit will consist of :

- Records reviewing as per the need of the project
- Solving problems through QI tools (POCQI)
- On spot skill building of staff (Mentoring/Coaching)
- Data analysis (using easy to learn QI tools like time series charts, fishbone etc)
- Report writing (at the conclusion of the first project)
- Measuring improvements using process and/or outcome indicators as defined by the participating teams.

In view of your eminence and extensive clinical experience we request you to kindly handhold the following facility for a period of next 3 months

1. **Name of Facility:** Balrampur DWH – SNCU and DCH – LR

Details of Onsite Team:

Dr Rinku Sengupta (OBGY Coach)

Prof Harish Pemde (QI Coach)

Ms.Jyoti Sareen (National Nurse Mentor)

The visits will be conducted after the go ahead from UNICEF UP, which should be available any day now and can be planned on mutual consensus between team members .

Your Air travel and surface travel will be taken care of by UNICEF UP and the Hotel charges (@Rs 5000/person per day) inclusive of food and honorarium of Rs 16000/visit will be reimbursed on conclusion of the visit .

I will communicate with you with further details of point of contacts for you to have a seamless experience on ground.

Thanking you

With kind regards

Dear Dr. Jyoti,

As you are aware “LaQshya- Labour room & Maternity OT Quality Improvement Initiative” is a flagship program of Government of India. We are committed for provision of quality healthcare services at Labour Room and Operation Theatre of LaQshya identified facilities. Though, there has been a tremendous increase in institutional deliveries in India, still quality of services being delivered, is an area of huge concern.

Considering the high number deliveries being conducted at Medical Colleges and also medical colleges being centers for creating future clinicians & nurses and nodal center for various key activities, involvement of Medical Colleges are vital for achieving LaQshya goals. One of the important efforts to achieve this goal is ‘Medical Colleges Mentoring’ by LaQshya National Mentors. In view of this, **Medical College, Haldwani** has been identified as one of the mentoring sites for LaQshya Quality Improvement interventions.

In this regard, Yogesh Kumar has been nominated as national mentor. National mentors shall visit the medical college **on 20 - 21th Jan 2020** and hand hold **Medical College, Haldwani** Labour room and Maternity OT in LaQshya QI methodologies. **During their mentoring visit, National mentors shall be considered on duty.**

While NHSRC shall bear the expenses of airfare (if applicable) for the national mentors; state has already been requested to facilitate their visit as per the email shared on 3rd June 2019. You are also requested to support the activity and kindly do the needful please

To Whom It May Concern

This is to confirm that Dr. Moumita Kotal (Passport. No. H9676168) was a Visiting Scientist in my group (ACTIVE Lab) during the period of 7th June 2019 to 24th July, 2019 at Korea Advanced Institute of Science and Technology (KAIST), South Korea. She is currently working as Assistant Professor in Maharishi Markandeshwar Deemed to be University, India. During her short period of staying as Visiting Scientist in my research group at KAIST, she was fully focused on our current collaborative research work (MOF based novel electrodes for high performance ionic actuators). In particular, I have conducted several times of research meetings with Dr. Kotal regarding the progress of our current research work. Dr. Kotal has successfully developed novel high-performance ionic type actuators by using MOF based composite electrodes. Based on our research collaboration, very soon we will submit our current manuscript in very top impact factor journal.

I am very much impressed by her efficient work with novel ideas. Her knowledge in basic and applied chemistry & material engineering is well up to the mark. Overall she is highly dedicated in her study and research.

Summarily, I am very confident that Dr. Kotal will definitely contribute very much to any Institution / laboratory. I wish her every success in life.

Re: Elite Reviewer for the *Archives of Physical Medicine and Rehabilitation*

Dear Dr. Samuel,

Peer reviewed journals depend on the generosity and wisdom of peer reviewers. We would not have achieved the recognition as a leading rehabilitation journal and been able to contribute to the scientific literature without the dedicated support of reviewers. Thus, we decided recently to recognize the highest level of peer reviewers by evaluating the scores assigned to reviews by our section editors. We congratulate you upon your selection as an Elite Reviewer for the *Archives of Physical Medicine and Rehabilitation* for 2019. Elite status designation reflects the number, timeliness, and quality of your reviews for the *Archives* in 2019 as judged by the editors. Your selection reflects critical thinking and effective participation in the process of peer review. After examining the performance of reviewers, we identified approximately 2 percent (49 people out of 2,391 reviewers who submitted 1,359 reviews in 2019) judged to be deserving of this recognition.

The evaluation of an original manuscript is a difficult task requiring critical thinking and demanding time, effort, and clear articulation of opinions. It represents a true act of scholarship, and is a necessary component of sound research. Nevertheless, this activity is almost devoid of reward or recognition, and in fact is anonymous to all but the editors. Therefore, we have established the designation of Elite Reviewer to recognize individuals whose contributions to the *Archives* have been of extraordinary magnitude and quality. We hope that your contributions to the rehabilitation literature will be accorded the respect that you deserve by your colleagues.

Again, congratulations for being selected an Elite Reviewer for *Archives*, and thank you for your many contributions to the peer review process.

Sincerely,

Leighton Chan, MD, MPH, FACRM
