This is to confirm that **Dr. Moumita Kotal** (Passport. No. H9676168) was a Visiting Scientist in my group (ACTIVE Lab) during the period of 7<sup>th</sup> June 2019 to 24<sup>th</sup> July, 2019 at **Korea Advanced Institute of Science and Technology (KAIST), South Korea**. She is currently working as Assistant Professor in **Maharishi Markandeshwar Deemed to be University, India**. During her short period of staying as Visiting Scientist in my research group at KAIST, she was fully focused on our current collaborative research work (MOF based novel electrodes for high performance ionic actuators). In particular, I have conducted several times of research meetings with Dr. Kotal regarding the progress of our current research work. Dr. Kotal has successfully developed novel high-performance ionic type actuators by using MOF based composite electrodes. **Based on our research collaboration, very soon we will submit our current manuscript in very top impact factor journal.** I am very much impressed by her efficient work with novel ideas. Her knowledge in basic and applied chemistry & material engineering is well up to the mark. Overall she is highly dedicated in her study and research. Summarily, I am very confident that Dr. Kotal will definitely contribute very much to any Institution / laboratory. I wish her every success in life.

Sincerely Yours,

A single computer program for the calculation of the radius parameter and hindrance factor (merging of ALPHAD and RAD) will be prepared and submitted to the IAEA for dissemination as part of the Analysis Codes used for Nuclear Structure and Decay Data evaluations for the Evaluated Nuclear Structure Data File (ENSDF).
  2. The existing table of Magnetic Rotational bands will be updated taking into account all the newly available data.
  3. The earlier table of radius parameters produced by Alkovali in 1998 (1998Ak04) will be updated.
  4. The evaluation of mass chain A=226 will be finalized and submitted for review.
  5. Efforts to further strengthen the data evaluation activity at Maharishi Markandeshwar University, Mullana, Ambala (India) will be continued.
- The above work will be done in consultation with other Data Centres, in particular with Dr. B. Singh (McMaster Univ., Canada), Prof. A.K. Jain (IIT Roorkee, India), Dr. J.K. Tuli (NNDC, BNL, USA), and Dr. G. Mukherjee (VECC, Calcutta, India).
