To Whom It May Concern

This is to confirm that **Dr. Moumita Kotal** (Passport. No. H9676168) was a Visiting Scientist in my group (ACTIVE Laboratory) during the period of 18<sup>th</sup> June 2018 to 26<sup>th</sup> July, 2018 at **Korea Advanced Institute of Science and Technology (KAIST)**, South Korea. She is currently working as Assistant Professor in **Maharishi Markandeshwar Deemed to be University, India**. I wish to congratulate her for recent publication in *Advanced Funtional Materials (Impact Factor=13.44)* which is *selected as hot article*. During her short period of staying as Visiting Scientist in my research group at KAIST, she was fully focused on our current collaborative research work. In particular, I have conducted several times of research meetings with Dr. Kotal regarding the progress of our current research work. Her recent work is based on the *development of novel hybrid electrodes towards the exploration of ionic-actuators*. Her work is going in fruitful direction.

I am very much impressed by her efficient work with novel ideas. Her knowledge in basic and applied chemistry & material engineering is well up to the mark. Overall she is highly dedicated in her study and research.

Summarily, I am very confident that Dr. Kotal will definitely contribute very much to any Institution / laboratory. I wish her all the best in his life.

Sincerely Yours,

To Whom It May Concern

This is to confirm that **Dr. Sandipan Roy** (Passport. No. L2048270) was a Visiting Scientist in my group (ACTIVE Laboratory) during the period of 18<sup>th</sup> June 2018 to 26<sup>th</sup> July, 2018 at **Korea Advanced Institute of Science and Technology (KAIST)**, South Korea. He is currently working as Assistant Professor in **Maharishi Markandeshwar Deemed to be University, India**. During his short period of staying as Visiting Scientist in my research group at KAIST, he was fully focused on manuscript preparation based on our collaborative work. In particular, I have conducted several times of research meetings with Dr. Roy regarding the progress of our current work and related to some other discussions for making future research work. Actually, *our current manuscript is based on the exploration of porous organic template derived novel electrode materials as high-performance ionic actuators which will be submitted very soon*. During his staying, he also started another work based on the newly designed porous electrolyte membrane for soft ionic artificial muscle.

I am very much impressed by his hard work with innovative ideas. His knowledge in basic and applied chemistry & material engineering is well up to the mark. Overall he is highly dedicated in his study and research.

Summarily, I am very confident that Dr. Roy will definitely contribute very much to any Institution / laboratory. I wish him all the best in his life.

Sincerely Yours,

To whomsoever it may concern

It is certified that **Dr. Neeraj Sharma** (Passport number: L2972090) worked as a post-doctoral research fellow in the Department of Mechanical and Industrial Engineering Technology of the Faculty of Engineering and the Build Environment at the University of Johannesburg from August 2018 to February 2019. During this period Dr. Sharma has worked on advanced manufacturing and published reputed research article.

I found him sincere and hard working.

I wish him a success in his life.
