To Whom It May Concern

This is to confirm that **Dr. Moumita Kotal** (Passport. No. H9676168) was a **Visiting Scientist** in my group (ACTIVE Lab) during the period of 7th June 2019 to 24th July, 2019 at **Korea Advanced Institute of Science and Technology (KAIST), South Korea**. She is currently working as Assistant Professor in **Maharishi Markandeshwar Deemed to be University, India**. During her short period of staying as Visiting Scientist in my research group at KAIST, she was fully focused on our current collaborative research work (MOF based novel electrodes for high performance ionic actuators). In particular, I have conducted several times of research meetings with Dr. Kotal regarding the progress of our current research work. Dr. Kotal has successfully developed novel high-performance ionic type actuators by using MOF based composite electrodes. **Based on our research collaboration, very soon we will submit our current manuscript in very top impact factor journal.** I am very much impressed by her efficient work with novel ideas. Her knowledge in basic and applied chemistry & material engineering is well up to the mark. Overall she is highly dedicated in her study and research. Summarily, I am very confident that Dr. Kotal will definitely contribute very much to any Institution / laboratory. I wish her every success in life.

Sincerely Yours,
