Report on Webinar

A webinar on the topic “**Advances in Nanomaterials & Nanotechnology**” was organized by the Department of Physics, MMEC, MM(DU) Mullana, Haryana on 13/07/2021. The aim of this webinar was to familiarize the students, research scholars & faculty of MM(DU) with the recent advances in the field of nanomaterials & nanotechnology. Dr. Anurag Gaur (Associate Professor) Department of Physics, JC Bose University of Science & Technology, Faridabad was the keynote speaker of the event. Dr. Anurag presented his research views on nanomaterials & nanotechnology and their recent applications. He also shared his research work in the field of solar cell, photocatalysis, water treatment and environmental remediation. At the end of talk, participants are allowed to interact with speaker who gave answer to their questions. 55 participants (including students of B.Sc, M.Sc & PhD courses as well as faculty) attended this seminar which are further facilitated by e-certificate. Prof Vandana Sharma was convener, Dr Dixit Prashar was coordinator & Dr Suresh Kumar was organising secretary of this event.

Some highlights of the event:

Dr. Anurag Gaur is presenting

What is nanotechnology?

Nanotechnology has the following features:

- 1) Research and development at molecular or atomic levels, with lengths ranging between about 1 to 100 nanometres.
- 2) Creation and use of systems, devices, and structures which have special functions or properties because of their small size.
- 3) Ability to control or manipulate matter on a molecular or atomic scale.

Report on Training of REMI CPR 30Plus Centrifuge

A workshop on the training of REMI CPR 30Plus Centrifuge Machine was organized by the Department of Physics, MMEC, MM(DU) Mullana, Haryana on 12/11/2021. The aim of this training session was to familiarize the research scholars, technicians & faculty of MM(DU) with the installation, operation and uses of REMI CPR 30Plus Centrifuge Machine. Mr. Virender Kumar, Engineer from ANA BIOENERGY, Kurukshetra trained the attendees about functioning & uses of CPR centrifuge machine. He also answered all the queries arose by the attendees during the session. Total 24 participants were attended this training session.

Report On Invited Talk

An Invited talk on the topic "Heterostructure Photocatalysts as Emerging Materials for Water Purification and Environmentally Sustainable Systems" was organized by the Department of Physics, MMEC, MM(DU) Mullana, on 20/01/2022. Prof. Yogesh C Goswami, Dean International Cooperation and Projects, ITM University, Gwalior was the keynote speaker of the event. The real motivation behind this invited talk was to familiarize the students, research scholars & faculty of MM(DU) with the recent advancements, opportunities and challenges in the field of Heterostructure photocatalysts for water remediation processes. Prof. Goswami started the talk with the basics of photocatalysis and progressed the talk on the advancements in the synthesis and applications of heterojunction photocatalytic materials. At the end of talk, participants were allowed to interact with speaker who gave answer to their queries. 98 participants from various departments/institutes attended this talk and got benefitted. Dr Dixit Prasher and Dr. Suresh Kumar were the event coordinators.

Report on Expert Talk

Department of physics MMEC organized an expert talk on the “Enhanced Plasmon Biosensors” on 19 February 2022 at skill centre engineering block-1 from 02:30 pm to 03:30 pm. Dr. Sachin Kumar Srivastava from the Indian Institute of Technology, Roorkee was the keynote speaker. Nearly 11 students and 15 faculty and staff members of various departments were present at the event. Both students and faculty members were introduced to the new and emerging research field of Plasmon’s and their implementation in making biosensors. It was really an informative and thought-provoking session. At the end of the talk all, the queries raised by the students and faculty members were answered to satisfaction. Dr. Ishan Choudhary (Assistant Professor, Department of Physics) was the coordinator of the event. Some glimpses of the event are showcased through the photographs given below:

Report on One Week Short Term Course on Nanomaterials and their Green Applications

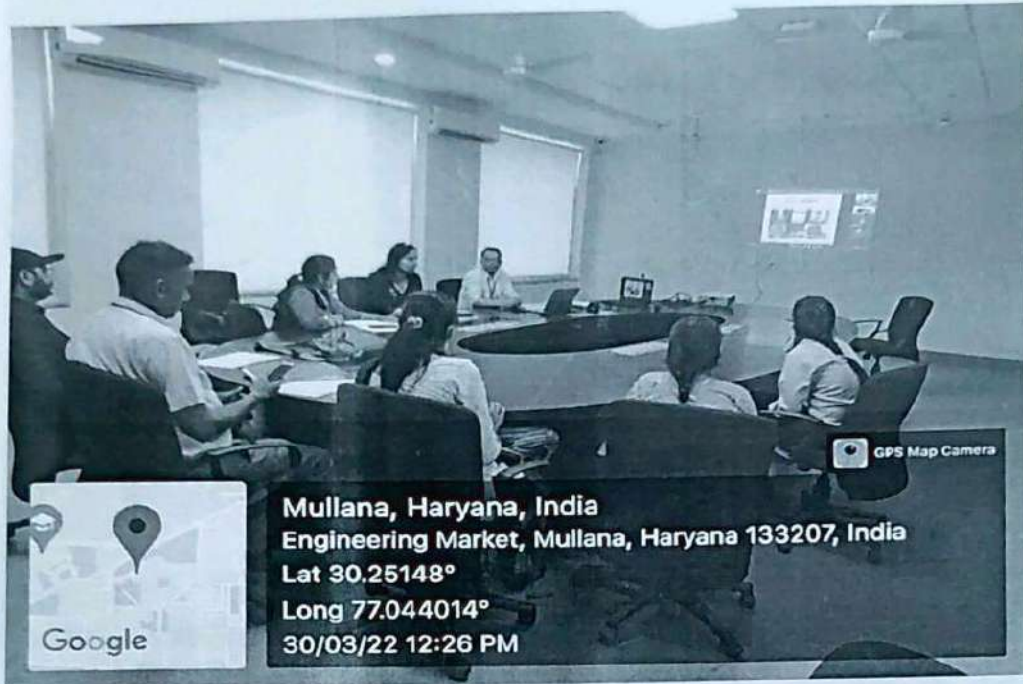

One week Short-Term Course/FDP on "Nanomaterials and their green applications" (OPLAN: ICT-172), was conducted by the Department of Applied Sciences, National Institute of Technical Teacher's Training & Research (NITTTR) Chandigarh from 28.03.2022 - 01.04.2022 at the Department of Physics, MMEC, Maharishi Markandeshwar (Deemed To Be University), Mullana, Haryana. The aim of this course was to train the faculty members, scientists, industrial personnel on Nanomaterials and their green applications. The fundamental principles guiding the advances in these areas were presented by distinguished experts from various institutes across the country. There were three sessions (1.5h each) per day. No registration fee for the participants those were registered for this course via remote center. Maharishi Markandeshwar Engineering College (MMEC) was the remote center, Dr. Suresh Kumar was the local coordinator & Mr Tarsem Pal Sharma was supporting staff for this STC. Eighty four faculty members & researchers registered for the course through NITTTR, Chandigarh. Registered participants have attended the STC online via google meet as well as physically at Skill Lab, old Engg block-1. All participants actively participated in this STC and frequently interacted with the experts on different areas of Nanoscience. Sixty three faculty members have attained the mandatory 80% attendance condition and qualified for the certificate after the completion of STC.

NOTICE

Department of Physics is organizing a Short-Term Course/FDP on “**Nanomaterials and their green applications**” (OPLAN: ICT-172) in collaboration with National Institute of Technical Teacher’s Training and Research (NITTTR), Chandigarh, from **28 March – 01 April, 2022**. This course aims to train faculty members, scientists, industrial personnel on Nanomaterials and their green applications. The fundamental principles guiding the advances in these areas will be presented. There will be 3 sessions (1.5h each) per day. All lectures/sessions will be arranged/delivered by NITTTR Chandigarh in **Online/ICT mode** and 100% attendance is compulsory for the participants.

There is NO REGISTRATION FEE for the participants registering this course via Remote Center, MMEC.

Important Instructions for participants:

Registration Link for STC: <https://forms.gle/Mnj9ZUSoKXAY57xi8>

Select Remote Centre: Maharishi Markandeshwar Engineering College

Requirement: Upload scanned copy (PDF/JPG) of valid Official ID Card/sponsorship letter.

Last Date of Participants Registration: 25 March 2022 (5:00 PM)

Coordinator STC Remote Centre: Dr. Suresh Kumar (Associate Professor)

All HOD are requested to encourage faculty members to actively participate in the programme.

Report on One Week FDP on Spectroscopy Techniques & Instrumentation

One week faculty development programme on "Spectroscopy Techniques & Instrumentation" (OPLAN: ICT-29), was conducted by the Department of Applied Sciences, National Institute of Technical Teacher's Training & Research (NITTTR) Chandigarh from 23.05.2022 to 27.05.2022 at the Department of Physics, MMEC, Maharishi Markandeshwar (Deemed To Be University), Mullana, Haryana through ICT/online mode. The aim of this FDP was to train the faculty members, scientists, industrial personnel on the various spectroscopic techniques used in the material analysis, their instrumentation and working. Various expert presentations on Raman spectroscopy, X-ray spectroscopy, IR spectroscopy, XPS, FTIR, UV-Vis-NIR spectroscopy as well as simulation softwares like XPSpeak4, PRISMA, SATFOS were delivered by eminent experts from various institutes across the country. Whole FDP was free of charge to all the participants that was registered through the MMDU remote centre. Dr. Suresh Kumar was the local coordinator & Mr Tarsem Pal Sharma was supporting staff for this FDP. There were three sessions (1.5h each) per day and 80% attendance condition was mandatory for all participants. The faculty of the department of Physics, Chemistry and biotechnology were participated actively in this FDP and interacted frequently with the experts on many research issues. Twenty-five faculty members have attained the mandatory attendance condition and qualified the online exam to get FDP certificate.

Report on One Week STC on Nanosensors & Devices

One-week short term course (STC) on "Nanosensors & Devices" (OPLAN: ICT-95), was conducted by the Department of Applied Sciences, National Institute of Technical Teacher's Training & Research (NITTTR) Chandigarh from 22.08.2022 to 26.08.2022 at the Department of Physics, MMEC, Maharishi Markandeshwar (Deemed To Be University), Mullana, Haryana through ICT/online mode.

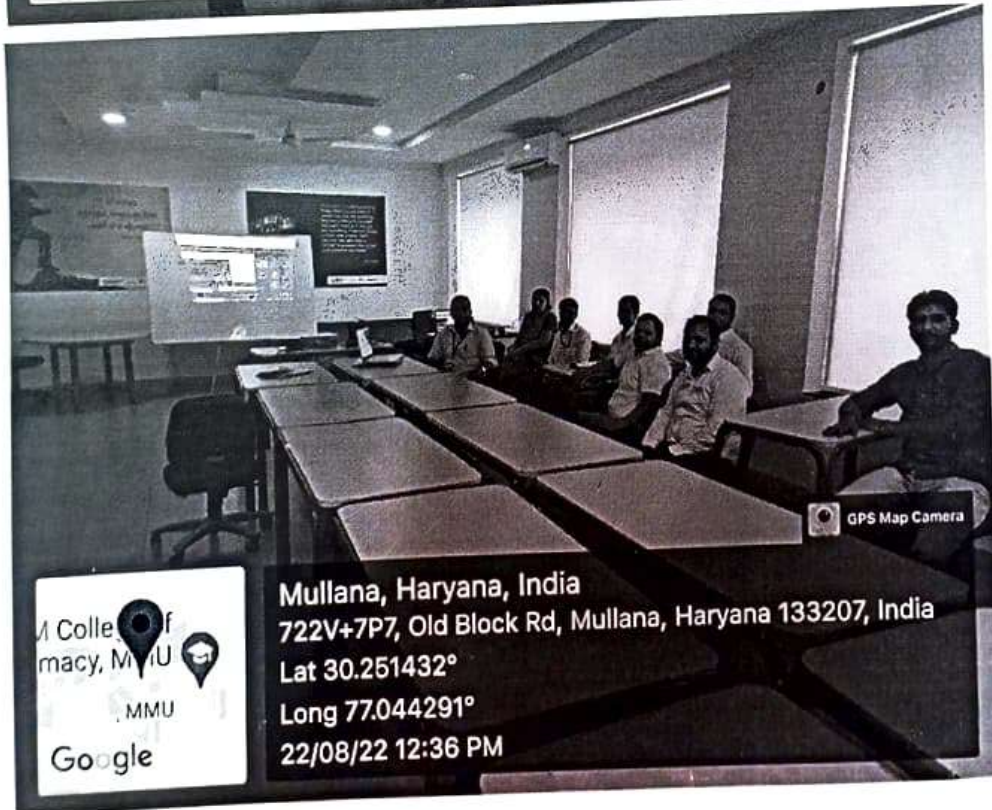

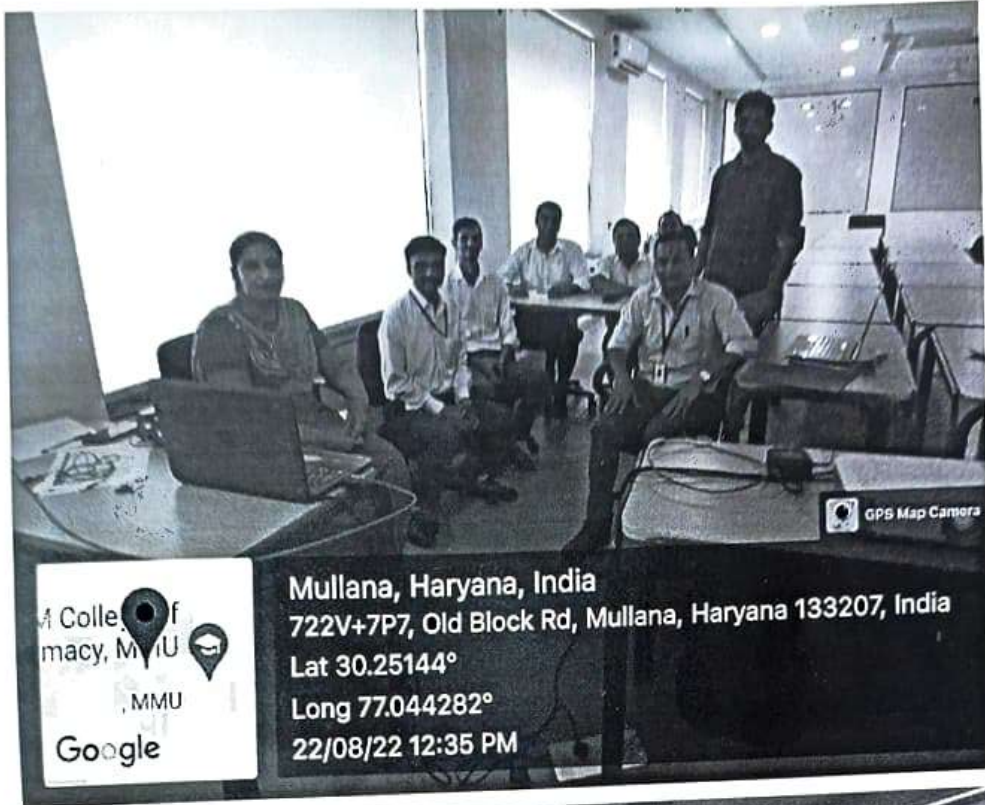

The aim of this STC was to train the faculty members, scientists, industrial personnel on the various aspects of Nanosensors & Devices. Different expert talks on introduction to nanostructured materials and nano-sensors, advance materials for sensors applications, nanomaterial simulation by exabyte.io cloud software for sensor application, electrosensitive biosensors, pharmaceutical applications of biosensors, piezoelectric sensors and their applications, etc., were delivered by eminent experts from various institutes across the country.

Daily, there were three sessions (1.5h each) per day and 80% attendance condition was mandatory for all participants. Thirty faculty members of different departments were actively participated, attended quizzes and qualified the mandatory attendance condition to get STC certificate. Dr Suresh Kumar was the local coordinator & Mr Tarsem Pal Sharma was supporting staff for this STC.

Research Methodology

- Methodology helps to understand not only the products of scientific inquiry but the process itself.
- Aims to describe and analyze methods, throw light on their limitations and resources, clarify their pre-suppositions and consequences, relating their potentialities to the twilight zone at 'the frontiers of knowledge'

ABSTRACT SUBMISSION

Scientific abstracts are called for presentation in the conference. Participants who wish to present academic papers/ posters in the field of Tuberculosis and Chest diseases can register for the conference and submit an abstract online, post successful payment of registration fee.

Scientific Abstracts on any of the above topics are invited for presentation in the conference. Participants willing to present academic papers/posters in the field of TB and Chest diseases should submit the abstracts of the same online on the website www.76natcon2022.com before 15th April 2022.

GUIDELINES:

Please strictly adhere to the following instructions while submitting the abstract/s online :

1. Registration for the conference is compulsory to submit an abstract.
2. All abstracts must be submitted in English language only.
3. Any one of the author/co-author should be registered for 76th NATCON 2022.
4. Abstracts must be submitted online only through the website, abstracts submitted via email/fax or any other means will not be accepted.
5. The title of the abstract must be concise, avoid using abbreviations.
6. The length of an abstract should normally not exceed 300 words, including the heading. The abstract should have between 5 to 10 keywords or phrases that closely reflect content of paper.
7. The abstract should comprise (a) objectives of the study, (b) methodology of investigation and (c) main findings. In respect of some papers, (b) and (c) may comprise the idea/hypothesis, discussion and conclusion. The abstract should provide concise summary of findings. Phrases like "findings will be presented at the Conference" are unhelpful.
8. If analysis is incomplete at the time, a revised abstract should be sent, at least six weeks prior to the Conference to be included in the "Programme and Summaries" for distribution among delegates.
9. The abstract should be well written in terms of language, grammar, etc. An inadequate abstract may not be considered by the Programme Committee for presentation.
10. In submitting the abstracts, the authors also grant the organising committee, the right to publish the abstract in electronic form.
11. The submitted abstracts will be reviewed by the scientific committee. The review process is confidential, and the committee's decision is final.

Last Date for Abstract Submission is 15th Feb' 22

Essential Requirements:

Author must send their Passport Size Photograph (as email attachment) and also share a brief introduction about themselves which may be used as a foreword for the speaker during the presentation.

For the same please note down the email id 76natcon2022@eventful.co.in

All the Best!!

Regards

MM College of Pharmacy under the patronage of MM (DU) Mullana, Ambala, Haryana, organized a workshop on the topic "**Hands on Exposure to Basic Analytical instruments**" on 07.10.2021 from 10:00-12:00 pm onwards. Total 50 participants attended the workshop. The workshop commenced with welcome speech by Dr. Dinesh Kumar, Professor, MM College of Pharmacy, MM (DU) Mullana, Ambala, Haryana. Mr. Khushboo Srivastava from Environmental and Scientific Instruments Co. demonstrated about the Flame Photometer, an analytical technique used for determining the concentration of metal ions such as sodium, potassium, lithium, calcium and cesium in inorganic chemical analysis. In Pharmaceutical Industry, sodium and potassium ion concentrations are determined in pharmaceutical reagents such as infusion and ringer solutions. The working procedure and applications of using Flame Photometer were highlighted which includes qualitative as well as quantitative analysis of Group I and II elements in soil, pharmaceutical, cement, food and beverage industry.

In another part of the workshop, he described about the Karl Fisher, a technique for water content determination in drug substance and drug products in Pharmaceutical Industry. Many active pharmaceutical ingredient and adjuvants contain water either in adsorbed form or bound as a hydrate that affects the quality, shelf-life and stability of the medicament as well as the release of the active substances. Therefore, determining the water content of medicaments is having great importance in Pharmaceutical analysis. The working procedure and applications of Karl Fisher was highlighted which includes direct analysis of water content in various industries such as food, petroleum, cosmetics and pharmaceuticals.

The demonstrator answered the questions of the students. Participants shared their views and appreciated the efforts of demonstrator in describing the Flame photometer. At the end, Dr. Nidhi Gupta gave vote of thanks to demonstrator as well as other participants.

MMIN (2022)

M.M. INSTITUTE OF NURSING, MULLANA, AMBALA
WORKSHOP

ON
“VIHASA”

{ 12th- 13th MARCH, 2022 }

*" Your beliefs become your thoughts,
Your thoughts become your words,
Your words become your actions,
Your actions become your habits."*

With today's emphasis on quality of services, how healthcare professionals deliver the best possible care to the patients and at the same time feel enriched and supported by their work ?

In the chaotic world we live-in, everyone wants to be around happy, positive, encouraging individuals. VIHASA enables to become such a person, It inspires participants to conjure courage to face their failures, VIHASA builds values such as compassion, co-operation, peacefulness and self-care, encouraging participants to explore using these values in their personal and professional lives. It enable professionals in all settings to cope better with their work, raise morale and restore a sense of purpose, helping to prevent problems of burnout, sickness absence and staff retention.

Taking this into consideration, M.M. Institute of Nursing organized a two days workshop on **“VIHASA”** focusing on emerging trends in field of nursing and medical practices for the health care professionals on **12th- 13th MARCH**, topic- **VIHASA** (Values In Healthcare-A Spiritual Approach). As every successful event has proper guidance and support, this event was also planned under the guidance of Dr. Yogesh Kumar (Principal, M.M.I.N) & Ms. Jyoti Phougat (Asst. Professor, MMIN). The Workshop thus provide a forum for healthcare professionals exploring how spirituality can be integrated into current working practices.

VIHASA FACILITATION WORKSHOP

A Personal and team development programme for healthcare professionals
(ONLINE)

12th-13th March, 2022

Organized by:

M.M. Institute of Nursing

ABOUT THE INSTITUTE

MMIN was established in 2006 with an objective to prepare a land of competent and skilled female graduate nurses.

The college/institute strives to prepare students for academic and clinical excellence like classroom teaching using appropriate A.V aids, simulation training, field visits, quiz, arranging workshops and laboratory demonstrations and personality development.

Clinical experience is provided to the students in 1500 bedded parent hospital under the continuous supervision of dedicated faculty

ABOUT THE EVENT

With today's emphasis on quality of services, how healthcare professionals deliver the best possible care to the patients and at the same time feel enriched and supported by their work? **Values in Healthcare:** a spiritual approach addresses an important gap in personal and team development for healthcare professionals today by taking a fresh, values-based approach to their learning and practice

Values in health care emphasis on essential relationship including reflection, listening, appreciation, meditation, visualization, creativity,
