Event Report

Name of the Event: Lecture on world patient safety day

Organizer's Name: MMCDJR

Date of Event: 23.09.2024

Venue: MMCDJR

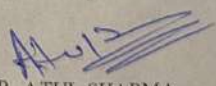

Details of Event

No. Of Participants : 35
Lecture Topic : Patient safety
Guest Name : Dr. Atul Sharma
Company : MMCDJR, Mullana
Designation : Professor and HOD, Department of Oral & Maxillofacial Surgery

Event Description: Dr. Atul Sharma discussed about Improving the diagnosis for patient safety, highlighting the critical importance of correct and timely diagnosis in ensuring patient safety and improving health outcomes. He also explained that diagnosis identifies a patient's health problem, and is a key to accessing the care and treatment they need. A diagnostic error is the failure to establish a correct and timely explanation of a patient's health problem, which can include delayed, incorrect, or missed diagnoses, or a failure to communicate that explanation to the patient. He also discussed about the concerted efforts to significantly reduce diagnostic errors through multifaceted interventions rooted in systems thinking, human factors and active engagement of patients, their families, health workers and health care leaders. Interventions like complete patient history, undertaking thorough clinical examination, improving access to diagnostic tests, implementing methods to measure and learn from diagnostic errors, and adopting technology-based solutions were explained in great detail.

Outcome: The lecture was a great success in which a total of 35 participants attended. The speaker suggested very useful tips and take away messages regarding global health and safety.

**Subject : Observance of World Patient Safety Day on
17 September 2024**

All HoD
MMCD SR-Mullana

Greetings.

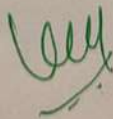

Patient safety is a cornerstone of healthcare, representing freedom from unnecessary harm associated with the delivery of health services. The Ministry of Health & Family Welfare places great emphasis on cultivating a culture of safety within all health institutions. As you know, ensuring patient safety encompasses a wide range of practices, starting from the moment a patient enters the hospital and continuing throughout their stay and after they leave.

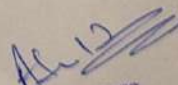

In line with our commitment to enhancing patient safety, I request you all (each department) to commemorate Patient Safety Day on 17 September 2024 and also conduct a lecture to Interns/PG students and faculties as per the following schedule. This year, World Patient Safety Day is themed "Improving Diagnosis for Patient Safety," which underscores the critical role that patients, families, and caregivers play in ensuring safe healthcare.
