To

The Principal,
Govt. sr. sec. School,
Mullana (Ambala)

Subject: - Legal Awareness Campaign

Respected Sir/Madam,

District legal services authority of ambala is determined to spread legal literacy In the civil society at various level. Hence the students of department of law, MM (DU),Mullana will organise the programme on "Women Right" on 11th March 2022 at 1 PM. Kindly make it convenient and necessary arrangement for the PPT presentation on the topic mentioned above. The students shall visit with faculty members.

Thanking You

Your's sincerely

Head of Department

**Report
Legal Awareness Programme**

The Legal Aid Clinic of the Department of Law, MM (DU), Mullana organized Legal Awareness Programme on Rights of Women and Children on 11.03.2022 at Government Senior Secondary School, Mullana under the supervision of Principal, Prof. Bindu Jindal. The session was started by Final year student Mohini wherein she explained about legal rights that every woman must know. She explained about various rights pertaining to woman like right to education, right against sexual harassment, zero FIR, dignity and decency of women. The session was carried forward by another student Akshra, wherein she explained legal rights of women i.e., right against arrest, right against interrogation, right to get free legal aid, and right to maintenance etc. Further, session for child rights was begun by Kirti and Akanksha, by discussing child rights in the Indian Constitution like, right to education, right against bonded labour among other rights. They interacted with the school students and made them aware about constitutional and statutory rights. In last, Madam Sujata Dahiya, Assistant Professor addressed the students about origin of rights and constitutional provisions of fundamental rights. The final year students touched the different rights of women and children in efficient manner with the assistance of power point presentation. The session was concluded by Ms. Sushma, Incharge of School Legal Literacy Cell and School Principal Ms. Minika thanked the organizers. It was a very interactive session.

Report

Legal Awareness Programme at ADR Centre, Ambala

A Legal Awareness Programme for the Law students was organized for the celebration of Constitution Day on 26th November, 2021 at 11:00 am in ADR Centre, Ambala. A total of 40 students from B.B.A.LL.B/B.COM.LL.B. III semester participated in the Programme. The students visited Front Office Desk, Lok Adalat and Mediation Centre at District Court, Ambala. During the visit, the students observed the proceedings of the ADR Centre, where aggrieved person is guided by the panel advocate of DLSA (Ms. Bindu) in response to their problems. It has collaboration with other government departments like ADC office, Municipality Office etc. The students also observed the proceedings of Lok Adalat in which Chairman S.L. Sharma and two other members, Ms. Anita Khanna and Dr.S. K. Takyar briefed them about functioning of Permanent Lok Adalat. In addition to that, mediation proceedings was also observed by the students, which was presided by Honourable CJM, Dr. Sukhda Pritam and Ms. Rekha Lekhi, Panel Advocate. The visit to ADR Centre, Ambala proved much beneficial for the students as they learn about the procedure of mediation in settlement of disputes.

M.M. COLLEGE OF NURSING, MULLANA

GROUP PROJECT

ON

"COMMUNITY ACQUIRED PNEUMONIA"

SUBJECT: COMMUNITY HEALTH NURSING

SUBMITTED TO
Ms. Pooja jaswal
Assistant professor

18/12/21

SUBMITTED BY:
Group 1st
BSc. Nursing 4th year
ROLL NO- {2 - 34 }, 67

OBJECTIVES:

1. To create awareness among the people.
2. To prevent the occurrence of disease
3. To educate people regarding the sign and symptoms of disease and focus on prevention and home management of community acquired pneumonia.

THEME

“ EACH BREATH COUNTS”

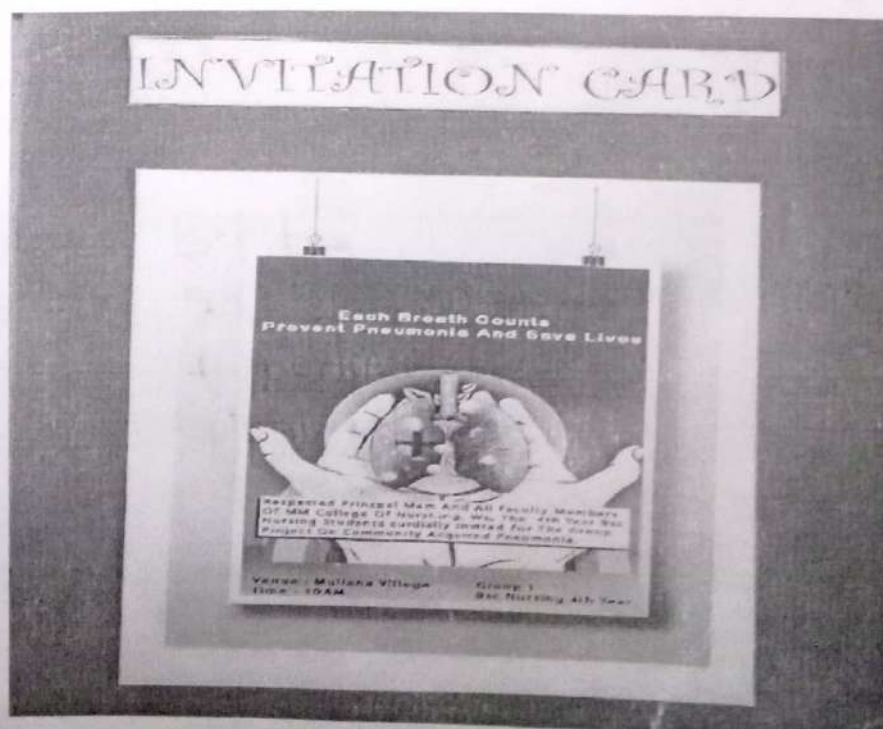

DATE: 17/12 /2021

VENUE: Mullana village

LANGUAGE: Hindi

This group project was organised in the village mullana for the community people so as to make them aware about the pneumonia that is acquired in the community. We Explained the people regarding the causes, symptoms, management and prevention of the community acquired pneumonia.

INVITATION CARD

COMMUNITY FIELD SUPERVISOR

MS. Uma Deaver (HOD) 

MS. Pooja jaswal (Assistant Professor) 

MR. Rohit Pandita (Clinical Instructor)

GROUP MEMBERS : 29

ROLL NUMBER :1918001-1918035

INCHARGES :

Group leader : Jaspreet Kaur

Invitation card: Jaspreet Kaur

Content: Sumbul Rasool

Hilal , Basit ,Kanishka ,Komal ,Arju

Charts explanation: Akanksha, Diksha, Anshul, Aakash ,Basit

Refreshment: Gurdeep and ankesh

Video : Ankesh ,Agam and Ramandeep

Budgeting : Amit

Report making : Jaspreet and Akshat

Photography: Abhinav and Aman

GROUP

There was approximately gathering of 30 - 40 members who include Teachers of MMCON, People of Village mullana.

PRE- GROUP PROJECT

On the previous day of the group project we went to rural community mullana to inform about the group project , We have taken permission from ASHA worker of Mullana for conducting group project on COMMUNITY ACQUIRED PNEUMONIA in the Aanganwadi centre of Mullana. We prepared all the AV-aids and did the rehearsal for the chart explanation and gave the invitation to the principal mam and all the faculty members of MMCON for group project .

POST GROUP PROJECT:

The group on community acquired pneumonia was conducted by Bsc Nursing 4th year students with the help of faculty members on 17th DEC 2021 at ANGANWADI CENTRE at 11am – 12:30PM.

ACTIVITY:

1. MYTHS REGARDING PNEUMONIA

2. CONTENT:

Following the myths explanation we elaborated the content for Community acquired pneumonia with the help of charts .

INTRODUCTION :

Pneumoniae is a breathing condition in which there is an infection in lungs. Community acquired pneumonia is found in people who have not recently visited any health care facility. It is acquired outside the hospital premises and the part foremost affected by this kind of pneumonia is alveoli.

CLASSIFICATION:

1. ANATOMICAL CLASSIFICATION :

- Lobar pneumonia
- Bronchopneumonia
- Interstitial pneumonia

2. ETIOLOGICAL:

- Fungal
- Bacterial
- Mycobacterial pneumonia
- Parasitic pneumonia

RISK FACTORS:

- Chronic disease
- Suppressed immune system
- Malnutrition
- Poor dental health
- Exposure to environmental agents

CAUSES:

BACTERIAL : Streptococci , hemophilus influenza, mycobacterial tuberculosis

ATYPICAL : Mycoplasma pneumonia chlamydia pneumonia

VIRUSES: Influenza , adenovirus

FUNGAL : Histoplasmosis pneumocystic pneumonia

Aspiration of fluid within lungs

SIGN AND SYMPTOMS:

Sneezing and runny nose
Chest pain
Sore throat
Fatigue
Fever
Myalgia
Headache
Loss of appetite
Confusion

Diagnosis:

Physical examination
Sputum culture
Urine analysis
Polymerase chain reaction
CT scan
X-ray

Management

Penicillin
Amoxicillin
Tazobactam
Antiviral and antepyreptic
Salbutamol

SUPPORTIVE THERAPY

It includes oral rehydration and IV fluids

PREVENTION :

Exclusive breastfeeding for first six months
Vaccinated children
Safe drinking water
Frequently washing should be done
Good nutrition specially for children age 6 month to 2 years
Adequate indoor ventilation

COMPLICATIONS:

Septicemia

Lung abcess

ARDS

Para pneumonic effusion

Hypotension

Empyema

Respiratory failure

3. BALLOON BLOW UP ACTIVITY

Like spirometry we know that balloon blowing inflates our lungs so we made the people blow ballon as part of creating awareness

4. LAUGHTER THERAPY :

We made people indulge in the laughter therapy to expand the lungs and teach them about how this can increase the vital capacity.

Conclusion:

Community acquired pneumonia is thus acquired outside the hospital. It is a respiratory condition that is caused by bacteria, virus, and fungi and is preventable to a much extent.

REFRESHMENT:

One biscuit packet was given to all community people who attended the group project.

VOTE FOR THANKS:

After the role play, we thank the community people who carefully listened to the role play and encouraged us to complete this knowledge-filled project next time also.

FEEDBACK:

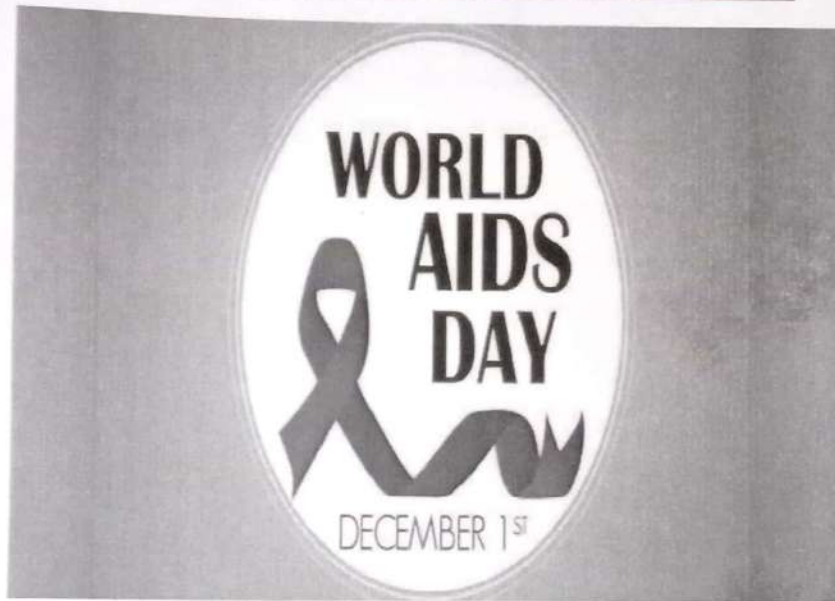

Ms. Pooja Jaswal (assistant professor)

Mr. Rohit Pandita (assistant professor)

A.W.W. (Mullana)

Community members of village Mullana gave us the feedback regarding the group project.

21/12/2021

**A REPORT ON GROUP PROJECT
ON
WORLD AIDS DAY**

A group project was organized on December 18 2021 (10:00 AM – 12:00 PM), outside the Medical Ward, Old Building Block 'A' MMIMSR, by a group of MSc. Nursing 1st Year & MSc. Nursing 2nd Year students, Department of Medical Surgical Nursing, Mullana (Ambala) under the supervision of Ms. Anjula, Assistant professor of Medical surgical Nursing Department.

Role play was performed by students to create awareness among people regarding Myths, prevention and management of HIV/AIDS. We would like to give special thanks to people and all the faculties from Medical Surgical Nursing Department, MMCON for their presence and valuable opinion.

INTRODUCTION:

HIV (Human Immunodeficiency Virus) remains a major public health issue that affects millions of people worldwide. Although the world has made significant progress in recent decades, important global targets for 2020 were not met. Division, disparity and disregard for human rights are among the failures that allowed HIV to become and remain a global health crisis. Now, COVID-19 is exacerbating inequities. lives of many people living with HIV (Human Immunodeficiency Virus) more challenging.

The **theme** of World AIDS Day 2021 is “**End inequalities. End AIDS**”.

On 1 December 2021, WHO (World Health Organization) is calling on global leaders and citizens to rally to confront the inequalities that drive AIDS (Acquired Immunodeficiency Syndrome) and to reach people who are currently not receiving essential HIV (Human Immunodeficiency Virus) services.

DEFINITION OF HIV/AIDS (HUMAN IMMUNODEFICIENCY VIRUS/ ACQUIRED IMMUNODEFICIENCY SYNDROME):

Acquired immunodeficiency syndrome (AIDS) is defined as an HIV infection with either a CD4⁺ T cell count below 200 cells per μ L or the occurrence of specific diseases associated with HIV (Human Immunodeficiency Virus) infection.

EPIDEMIOLOGY:

- In 2020, about 37 million people worldwide were living with HIV (Human Immunodeficiency Virus) and 680,000 deaths had occurred in that year. India has the third largest HIV (Human Immunodeficiency Virus) epidemic in the world, with 2.1 million people living with HIV.
- Between the time that AIDS (Acquired Immunodeficiency Syndrome) was identified (in the early 1980s) and 2020, the disease has caused an estimated 36 million deaths worldwide.
- HIV/AIDS (Human Immunodeficiency Virus/ Acquired Immunodeficiency Syndrome) is considered a pandemic a disease outbreak which is present over a large area and is actively spreading.

ROUTES OF TRANSMISSION OF HIV:

a. **Sexual contact:**

- Male to male
- Male to female or vice versa
- Female to female

b. **Blood exposure:**

- Injecting drug use/needle sharing
- Occupational exposure

- Transfusion of blood products
- Open cuts, breaks in skin, mucus membrane

c. Perinatal:

- Transmission from mother to baby
- Breast feeding

d. Occupational transmission:

- Health care worker/hospital staff
- Laboratory workers

e. Other routes:

- Organ transplantation
- Artificial insemination
- Needle prick

INCUBATION PERIOD:

1. The incubation period is from HIV (Human Immunodeficiency Virus) infection till development of AIDS (Acquired Immunodeficiency Syndrome).
2. It is from a few months to 10 years or more.
3. It is estimated that 75% of people infected with HIV will develop AIDS (Acquired Immunodeficiency Syndrome) at the end of 10 years.

RISK FACTORS OF HIV/AIDS:

1. Sharing infected injection drug use equipment
2. Having sexual relations with infected individuals
3. Infant born to mothers with HIV (Human Immunodeficiency Virus) infection/who are breast feed by HIV (Human Immunodeficiency Virus) infected mothers.
4. People who received organ transplant, HIV (Human Immunodeficiency Virus) infected blood

CLINICAL FEATURES/ STAGES OF HIV INFECTION:

There are four stages of HIV and as with all illnesses, how it progresses, how long it takes and the affect it has on the individual depends on a number of factors for example, health, lifestyle, diet etc.

Stage 1: Infection

- HIV (Human Immunodeficiency Virus) quickly replicates in the body after infection.
- During this time the immune system reacts to the virus by developing antibodies. This is referred to as 'sero-conversion'.
- Fever
- Headache
- Muscle aches and joint pain
- Rash
- Sore throat and painful mouth sores
- Swollen lymph glands mainly on the neck
- Diarrhea
- Weight loss
- Cough
- Night sweats

Stage 2: Asymptomatic

- As the name suggests, this stage of HIV (Human Immunodeficiency Virus) infection does not cause outward signs or symptoms.
- A person may look and feel well but HIV (Human Immunodeficiency Virus) is continuing to weaken their immune system.
- This stage may last several years (an average of 8 to 10 years) and without a HIV (Human Immunodeficiency Virus) test many people do not know they are infected.

Stage 3: Symptomatic

- Over time the immune system becomes damaged and weakened by HIV (Human Immunodeficiency Virus) and symptoms develop.
- Initially they can be mild but they do worsen. Symptoms include:
 - Fever
 - Fatigue
 - Swollen lymph nodes — often one of the first signs of HIV infection
 - Diarrhea
 - Weight loss
 - Oral yeast infection (thrush)
 - Shingles (herpes zoster)
 - Pneumonia
- The symptoms are caused by the emergence of opportunistic infections; they are referred to as opportunistic infections because they take advantage of a person's weakened immune system. Some examples of opportunistic infections are toxoplasmosis.
- Tuberculosis and Kaposi sarcoma.

Stage 4: AIDS/Progression of HIV to AIDS

- There is no single test for AIDS (Acquired Immunodeficiency Syndrome) doctors will look at a variety of symptoms including the CD4 count, the viral load and the presence of opportunistic infections in order to make an AIDS (Acquired Immunodeficiency Syndrome) diagnosis.
- Although HIV (Human Immunodeficiency Virus) disease progression is described in stages, it is not inevitable that a person will go from Stage 1 Infection to Stage 4 AIDS (Acquired Immunodeficiency Syndrome).
- There is treatment available that can prevent a person developing AIDS (Acquired Immunodeficiency Syndrome) and deal with the symptoms of HIV (Human Immunodeficiency Virus) infection.
- There are a number of people living with HIV (Human Immunodeficiency Virus) who have not developed AIDS (Acquired Immunodeficiency Syndrome) even without medical intervention, these people are referred to as 'long-term non progressors and

have been subject to much research in the hope of finding more information about their immune systems.

DIAGNOSTIC TEST OF HIV/AIDS:

MAJOR SIGNS	MINOR SIGNS
<ul style="list-style-type: none">• Weight loss >10% of body weight• Chronic diarrhea > 1 month• Prolonged fever > 1 month	<ul style="list-style-type: none">• Persistent cough > 1 month• Generalized pruritis• Oropharyngeal candidiasis• Chronic progressive herpes simplex infection• Generalized lymphadenopathy

ELISA:

- ELISA which stands for enzyme-linked immunosorbent assay is used to detect HIV infection.
- If an ELISA test is positive, the Western blot test is usually administered to confirm the diagnosis. If an ELISA test is negative, should be tested again in one to three months.

2. Western Blot:

This is a very sensitive blood test used to confirm a positive ELISA test result.

3. Viral Load Test:

- This test measures the amount of HIV in blood.
- Generally, it's used to monitor treatment progress or detect early HIV infection.
- Three technologies measure HIV viral load in the blood: reverse transcription polymerase chain reaction (RT-PCR), branched DNA (bDNA) and nucleic acid sequence-based amplification assay (NASBA).
- The basic principles of these tests are similar. HIV is detected using DNA sequences that bind specifically to those in the virus. It is important to note that results may vary between tests.

4. Saliva Tests:

- A cotton pad is used to obtain saliva from the inside of cheek.
 - The pad is placed in a vial and submitted to a laboratory for testing.
- Results are available in three days. Positive results should be confirmed with a blood

test.

STAGE	LABORATORY EVIDENCE	CLINICAL EVIDENCE
1	Laboratory confirmation of HIV infection and CD4+ T-lymphocyte count > 500 mcL or CD4+ T-lymphocyte percentage >29	None required
2	Laboratory confirmation of HIV infection and CD4+ T-lymphocyte count 200-499 mcL or CD4+ T-lymphocyte percentage of 14-28	None required
3 (AIDS)	Laboratory confirmation of HIV infection and CD4+ T-lymphocyte count <200 mcL or CD4+ T-lymphocyte percentage <14	OR documentation of an AIDS defining condition (with laboratory confirmation of HIV infection)

MANAGEMENT OF HIV/AIDS:

1. Antiretroviral therapy:

Goal:

- To reduce HIV associated morbidity and prolong the duration and quality of survival
- To restore and preserve immunologic

function.

☐ To maximally and durably suppress plasma HIV viral load

☐ To prevent HIV transmission.

a. Nucleoside Reverse Transcriptase

Inhibitors:

- Abacavir
- Lamivudine
- Zidovudine

b. Non- Nucleoside Reverse Transcriptase

Inhibitors:

- Delavirdine
- Nevirapine
- Etravirine

c. Protease Inhibitors:

- Amprenavir
- Indinavir
- Atazanavir

2. Antidiarrheal therapy:

- Although many forms of diarrhea respond to treatment, it is not unusual for this condition to recur and become a chronic problem for the patient with HIV infection.
- Therapy with octreotide acetate (Sandostatin), a synthetic analogue of somatostatin, has been shown to effectively manage chronic severe diarrhea.

3. Chemotherapy:

It can be given in combination with radiation therapy for the treatment of Kaposi's sarcoma and lymphoma.

4. Nutrition therapy:

The basic principles of healthy eating will also serve well if HIV-positive. These principles include:

- Eating a diet high in vegetables, fruits, whole grains, and legumes.

- Choosing lean, low-fat sources of protein.
- Limiting sweets, soft drinks, and foods with added sugar.
- Including proteins, carbohydrates, and a little good fat in all meals and snacks.
- **Vitamin A and beta-carotene:** dark green, yellow, oranges, red vegetables and fruit; whole eggs and milk
- **Vitamin B:** meat, fish, chicken, grains, nuts, white beans, avocados, broccoli, and green leafy vegetables
- **Vitamin C:** citrus fruits
- **Vitamin E:** green leafy vegetables, peanuts, and vegetable oil
- **Selenium:** whole grains, nuts, poultry, fish, eggs, and peanut butter
- **Zinc:** meat, poultry, fish, beans, peanuts, and milk and other dairy products

PREVENTION:

1. Primary prevention:

It refers to activity focused on preventing uninfected people becoming infected.

For example (Pneumonia prophylaxis): approximately 15-30% of HIV infected people develop pneumonia caused by Opportunistic fungus pneumocystis carinii. Treatment of pneumonia with agents such as Cotrimoxazole is associated with 60-100% response rate.

2. Secondary prevention:

It aimed at enabling people with HIV to stay well.

For example:

Testing to allow people to know their status, welfare rights advice, lifestyle behaviour.

3. Tertiary prevention:

It aims to minimise the effects of ill-health experienced by someone who is symptomatic with HIV disease.

For example:

The prophylactic use of drugs and complementary therapies.

HEALTH EDUCATION:

- ❖ **Use a new condom:** Use a new condom every time when has anal or vaginal sex.
- ❖ **Tell sexual partners if have HIV:** It's important to tell all current and past sexual partners about HIV-positive. They all need to be tested.
- ❖ **Use a clean needle:**
If use a needle to inject drugs, make sure it is sterile and do not share it. Take advantage of needle-exchange programs in community. Consider seeking help for drug use.
- ❖ **If pregnant, get medical care right away:** If HIV-positive, may pass the infection to baby.
- ❖ But if receive treatment during pregnancy can significantly cut baby's risk.
- ❖ Avoid intoxication from drug or alcohol.
- ❖ Avoid unnecessary blood transfusions.
- ❖ Use standard precautions, hand hygiene and personal protective wear.
- ❖ Immunization against Hepatitis B virus should be done.

Management of Exposure site:

- A percutaneous injury (needle stick, cut with sharp object)
- ❖ Contact with mucous membrane and skin

Skin:

- Wash wound and surrounding with soap/water
- Rinse well
- Do not scrub
- Do not use antiseptic or skin washes

Eye:

- Eye irrigation with water or Saline
- If using contact lens leave them in place while irrigating.
- Remove once eye is cleaned remove them and clean

Mouth:

- Rinse mouth thoroughly with water / saline repeatedly
- Spit fluid immediately
- Do not use soap or disinfectant

REPORT ON POST COVID-19 HYGIENE AND SANITATION AWARENESS CAMP

The students of MMIT&BM (Hotel Management) college got an opportunity to visit Government Senior Secondary School, Adhoya for an awareness camp on Hygiene Practices- Post Covid-19 under 'POSHAN Maah' (Prime Minister's Overarching scheme for Holistic Nutrition, 2018) on **14th September, 2021**. The following topics were covered:

- Eating habits during Covid -19
- Post Covid -19 Hygiene and Sanitation practices
- Personal Hygiene

A **demonstration** on seven steps of 'Hand Washing' was the highlight of the event.

Every activity and the demonstration were very well planned by the students of BFST and BDN (5th Semester). As it was an interactive session, and the students were quite responsive and it turned out to be a great learning experience for all.

REPORT OF GROUP PROJECT

ON

WORLD AIDS DAY

WORLD aids day, designated on 1 December every year since 1988, international day dedicated to raising awareness of AIDS pandemic caused by spread of HIV infection and mourning those who have died of the disease. THE AIDS (*acquired immunodeficiency syndrome*) is a life threatening condition caused by HIV (*human immunodeficiency virus*) the virus attacks on immune system of the patient and reduces its resistance to other diseases. Government health officials, nongovernmental organizations and individuals around the world observe the day, often with education on "*AIDS prevention and control*". B.Sc. Nursing 2nd students were celebrated world AIDS Day on 1 December 2021. Awareness about HIV was spread among public through Role play as well as chart explanation under the supervision of Ms, Ms. Payal Saini (Nursing Tutor). According to World Health Organization theme for World AIDS day, 2021 was "*END INEQUALITIES. End AIDS*" more than 50 people had participated in this awareness programme

DATE: 1/12/2021

TIME: 11:00

VENUE: OPD registration area of MMIMS&R, Mullana (Ambala)

OBJECTIVES

Through awareness programme public had awared about HIV/AIDS:

1. its incidence and prevalence
2. mode of transmission
3. sign and symptoms
4. preventive measures

MAHARISHI MARKANDESHWAR ENGINEERING COLLEGE, MULLANA,
AMBALA

CIVIL ENGINEERING DEPARTMENT

On the occasion of Founder's Day 11 September, 2021, Department of Civil Engineering organized an Awareness Program on COVID-19 in Mullana. The sudden outbreak of the Coronavirus Pandemic sent the whole world into a whirlwind. The people who suffered most because of this situation were the migrant workers and people below poverty line. Most of the people in India, who fall under the poverty line, relocate to bigger cities for jobs. While they are already challenged in terms of survival, the lockdown was an add-on to their miseries. Neither were they able to earn to feed their families nor were they able to travel back home for survival, putting them in deep trouble. So, keeping in view of above problems, faculty and students of civil

CIVIL ENGINEERING DEPARTMENT

We buy a lot of clothes throughout the year. And if we notice, a good amount of clothes lie untouched in our wardrobes. Why dump them when there are millions of under-privileged people in this world struggling to get enough bread to live for the next day, enough rag to cover themselves away from humiliation and enough shelter that promises them some hope for tomorrow. So in view of the above context a cloth distribution drive was organized by the Civil engineering department on 14th November, 2021 for the poor and needy people. All the faculty members and students of Civil engineering department donated open heartedly for the noble cause. Mr. Amanpreet Singh of Civil engineering department, MMEC, MMDU, Mullana coordinated the entire drive. The donation of cloth was done at slum area in Sector-8, Grain Market, Ambala City, Haryana. We as a department strongly feel about destitute and for us nobody should suffer the lack of clothes. The smiles on the faces of the needy people proved the success of the event.

Report on World Food Day on 16.10.2021

World Food Day is an international day celebrated every year around the world on 16 October to raise awareness of issues behind poverty and hunger and to ensure the need for food. The Students of MMITBM and MMITBM (HM) has celebrated this day by conducting two successful events. The Students and Faculty of MMITBM distributed total 150 Food (Ration) Packets to 50 families in the slum area of Mullana. The main goal was to help the underprivileged and downtrodden on the big day. The 2nd event was the awareness program that was conducted in the Centralized Mess at 12.30 Pm. The students of MMITBM and MMITBM (HM) aware the students to not waste food as wasted food means wastage of money and effort which is never good for anyone. It can be estimated that tons of food is wasted every year, so students from both the institutes prepared posters and motivated students to try to avoid wasting food. The slogan "UTNA HI LE THAALI ME VYARTH NA JAAYE NAALI MEIN" was used to make them aware. A total of 27 volunteers participated in the event including 20 Students and 07 Faculties and nearly 800 students were motivated to not waste food. The event attracted praise from the underprivileged and was a great success

Sub: Appreciation Letter for Conducting an Awareness Programme

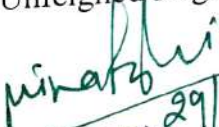

Dear Sir,

On behalf of Government High School, I would like to thank you from the bottom of my heart for organizing a fantastic programme in our school. I take this opportunity to show my appreciation to the whole team for putting stupendous efforts.

It is not often that you hear the students talking enthusiastically about the digital awareness. This shows the impact and the magnitude of the programme. If the students are happier, then we are definitely on the right track.

Students and Teachers have expressed their gratitude for the time and efforts that your team has put in making the event such a huge success. We look forward to more programme, which we know that you are very much capable of.

Unfeigned Regards

Headmaster

Dear Sir/ Ma'am,
Greetings!

Each year on April 22, more than a billion people celebrate Earth Day **to protect the planet from things like pollution and deforestation**. By taking part in activities like picking up litter and planting trees, we're making our world a happier, healthier place to live. The Earth Day 2022 theme is '**Invest in Our Planet**'. In order to celebrate World Earth Day, the Student Welfare Council of MMICT & BM is organizing the following events:

1. Tree Plantation
2. Wonder out of Waste
3. Pot Decoration

Date: 22.04.2022 (Friday)**Venue: 3rd Floor, Seminar Hall, MMICTBM Building****Timings: 10:00 am onwards****Rules and Regulations:**

POT DECORATION	WONDER OUT OF WASTE
No. of participants: 1 or 2	No. of participants: 1 or 2
Time: 60 minutes	Time: 60 minutes
Pots are to be carried by the participants themselves	Only waste materials are to be used
Participants are required to bring their own material for decoration, colours, etc.	Any participant found using material other than the scrap will be disqualified.
The decision of the Judges will be final	The decision of the Judges will be final

Important Note:

1. Pre-registration is necessary. Students can participate in any of the events by registering on: <https://forms.gle/1kUDkc8v7VQ4oRX27> latest by **20.04.2022 05:00 pm**.
2. Participants should report at least 15 minutes before the event starts.

Directors/ Principals/ Heads are requested to please circulate the information among the students of your respective Department/Institute.

REPORT ON WORLD EARTH DAY

Each year, more than a billion people celebrate Earth Day to protect the planet from things like pollution and deforestation. By taking part in these activities, we're making our world a happier, healthier place to live. The Student Welfare Council of the Institute celebrated the day on 22.04.2022. 02 events organized on this occasion in which 36 students participated. In Pot Decoration, participants make beautiful and attractive pots which depict some message about Earth. In Wonder Out of Waste, participants learnt the art of reducing, reusing and recycling. On this occasion, Dr. Jyoti Sarin, Director, M.M College of Nursing and Dr. Neha Sharma, Professor, Dept. of Biotechnology, MMEC praised the efforts of all the students and asked them to thank the Mother Earth. The Students and Staff took a pledge to preserve and conserve their self-sustaining planet, followed by Tree Plantation Drive in which 20 saplings planted. The events rekindled emotive concerns and instigated the youngsters to save, love and respect Mother Nature with all their heart and soul.

Vaccination Awareness Rally Report

On 5th August 2021, a Vaccination drive was conducted by MM College of Pharmacy, MM (Deemed to be University), Mullana-Ambala. On this occasion "A Rally cum Awareness Campaign on" COVID-19 VACCINATION GUIDE" was organized by MM College of Pharmacy. Students of PharmD 5th year (17) along with two faculty members and one staff member of MMCP visited Mullana Village, Ambala. Information related to COVID-19 Vaccination, advantages of getting vaccinated, side effects of vaccination, post vaccination precautions and general information about the medicines were given to the people of this village by door to door campaign. During this door to door campaign many families and shopkeepers take interest in this awareness educational activity. This awareness programme will definitely be helpful for the people in the society in the prevention and control of COVID-19 infection.

Report of "Earthen Water Pots for Birds (ISR Activity)" on 18.05.2022

Students of M.M.Institute of Management organized **Social Activity on "Earthen Water Pots for Birds (ISR Activity)"** on 18th May, 2022 at Kurukshetra. The purpose of this social activity was to keep around 150 earthen pots under trees. The main aim behind this activity was to provide water for birds during summer because birds actually do not need much water as mammals do and they don't have sweat glands. They still loose water through respiration and in their droppings and, most small birds, therefore, need water only twice a day to compensate water during summer.

Director of MMIM- Dr. Sunayna Khurana, Dr. Suman Gulia (Assistant Professor), Dr. Ranjit Verma (Associate Professor) and Mr. Sumit Verma (Assistant Professor) addressed the students and appreciated the student's initiative. Ms. Pooja Maken, and Mr. Navjot Kalra accompany the students during the social activity and guide them. Total 130 Students participated in this social activity and provide water for birds during summer The Social Activity on "Earthen Water Pots for Birds (ISR Activity) was successful.

Report of "Ped Lagao Desh Bachao" (ISR Activity) on 22.04.2022

Students of M.M.Institute of Management organized Tree plantation
"Ped Lagao Desh Bachao" (ISR Activity) on 22nd April 2022 in Mullana.

The purpose of this tree plantation is to spread awareness regarding our responsibility to be good stewards of the Earth. This ISR activity of tree plantation is one of the easiest and most sustainable ways to positively affect the environment. We need trees now more than ever! and it's our duty to encourage people to grow more trees. Students will do plantation in this activity. Through this, we will make awareness that this is an awakening time to grow plants and save the mother earth.

Mr.Ashok Kumar -Trustee, Devi Mata Bala Sundri, Mullana (Society),Mr.Avtar Singh-Branch Manager The Mullana Central Cooperative Bank, Director of MMIM-Dr. Sunayna Khurana, addressed the students and appreciated the students initiative. Dr Nipun Aggarwal and Dr. Anita Tanwar accompany the students during the tree plantation and guide them. Total 40 Students participated in tree plantation and grow plant in Mata Bala Sundri Temple area. The Tree plantation on "Ped Lagao Desh Bachao" was successful and taught us a call to action, advocating for making awareness that this is an awakening time to grow plants and save the mother earth.

Report of "Say No to Smoking & Tobacco" on 31.03.2022

Students of M.M.Institute of Management organized Rally on "Say No to Smoking and Tobacco" (ISR Activity) on 31st March, 2022 at Shahbad Markanda. The purpose of this rally is to raise awareness on the harmful and deadly effects of smoking and tobacco use and second-hand smoke exposure, and to discourage the use of tobacco in any form. Students also give information about the negative impact that tobacco has on people's lung health and cancer to chronic respiratory disease and the fundamental role lungs play for the health and well-being of all people.

Dr Kapi Sharma- SDM Shahbad Markanda, Mr. Anil Arora- Chairman Life Sun Foundation (NGO), Director of MMIM- Dr. Sunayna Khurana, addressed the students and appreciated the students initiative. Dr. Sunan Gulia, Dr. Anita Tanwar, Dr. Anita Yadav and Mr. Navjot Kalra accompany the students during the rally and guide them. Total 100 Students participated in Rally and give information about the negative impact that tobacco has on people's lung health among. The Rally on "Say No to Smoking" was successful and taught us a call to action, advocating for effective policies to reduce tobacco consumption.

NOTICE

This is to inform you that M.M.Institute of Management is going to organize Rally on "Say No to Smoking and Tobacco" (SRK Activity) on 31st March, 2022 at Shahabad Markanda. The purpose of this rally is to raise awareness on the harmful and deadly effects of smoking and tobacco use and second-hand smoke exposure, and to discourage the use of tobacco in any form. Students also give information about the negative impact that tobacco has on people's lung health, from cancer to chronic respiratory disease and the fundamental role lungs play for the health and well-being of all people. The rally also serves as a call to action, advocating for effective policies to reduce tobacco consumption.

All Students who are interested to participate in this event can contact the undersigned Faculty Coordinators and Student Coordinators by 25th March, 2022.

Report of "Go Green, Say NO to Plastics" on 28.02.2022

Students of M.M.Institute of Management organized a Social Awareness Camp on "Go Green, Say NO to Plastics" (ISR Activity) on 28th February, 2022 at Jaggi City Centre and NH 1 Factory Outlet at Ambala Cantt. The purpose of this event is to give awareness about to start the fight against plastic today for a better tomorrow. Through this camp, Students of MMIM will give awareness to convenient stores and retail shops and shopping malls.

Director of MMIM- Dr. Sunayna Khurana, addressed the students for this awareness campaign and appreciated the students initiative. Dr. Suman Gulia, Dr. Anita Tanwar, Ms. Indira Bhatti, Ms. Mandeep and Mr. Navjot accompany the students during the event and guide them. Total 50 Students participated in campaign and spread information among 30 shopkeepers. The awareness campaign was successful and this event taught us how to start the fight against plastic today for a better tomorrow.

Report of "Lohri Celebration with Slum Area Kids" on 13.01.2022

Students of M.M.Institute of Management celebrated a "Lohri Celebration with Slum Area Kids" on 13th Jan., 2022. The purpose of this event is to teach the importance of Lohri, one of the most commonly celebrated festivals in India and its importance of Lohri, one of the most commonly celebrated festivals in India and its a way to spread the joy of seeing the sparkling pearls of Rabi crops amidst traditional folk songs, dance and food. Lohri is the first festival of every year and falls on January 13, 2022. It is one of the most famous and revered festivals which is celebrated especially in North India with a lot of pomp and fervour. We invited slum area children of near about villages (Budhana and Sarakpur) and distributed eatables food items (Peanuts, Rewri, Gajjak, Poppoms and sweets) to about 50 children. Students of M.M.Institute of Management enthusiastically organized the event and also made Rangoli, burn bonfire, Sang "Bolyan" as part of the Lohri Celebration. Director of MNIM- Dr. Suneyna Khurana, Dr. Sunam Gulla, Dr. Anita Tanwar, Dr. Ranjeet Verma, Mr. Sumit Verma distributed eatables food items along with other faculty members.

जगत्कला अभियान - महिला व्यक्तिगत स्वच्छता

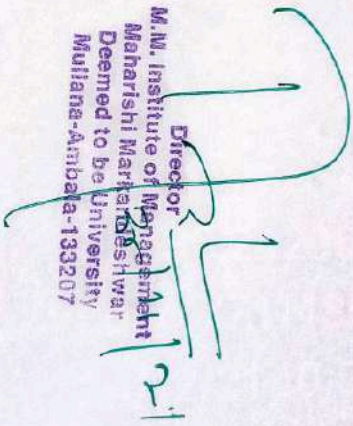

एमएमआईएम ने होली गांव में महिलाओं की व्यक्तिगत स्वच्छता के बारे में जगत्कला अभियान बनाया। इसमें एमवीए, बीबीए, बीसीओएम के विद्यार्थियों ने उत्साहपूर्वक भाग लिया। उन्होंने राजकीय वरिष्ठ माध्यमिक स्कूल, होली का दौरा किया और स्कूल की लगभग 50 छात्राओं से जगत्कला कलाई स्कूल के प्रधानाचार्य श्रीमती सुदेश और संकाय-श्री ऋषभ अन्न ने हमारा साथ दिया। हमारी छात्राओं ने पोस्टर, चार्ट दिखाकर स्वच्छता सेवा के बारे में संक्षिप्त परिचय के साथ शुरुआत की और मौखिक धर्म स्वच्छता पैदा की और सैनिटरी पैड के उपयोग और इसके उचित निपटान के महत्व पर भी जोर दिया। हमने उन्हें व्यक्तिगत स्वच्छता सुनिश्चित नहीं करने के हानिकारक दृष्टान्तों के बारे में बताया। अंत में हमने एक Q. आयोजित किया।

Awareness Campaign – 'Women Personal Hygiene'

MMIM organized awareness campaign about personal hygiene of women at Holi village. The students of MBA, BBA, BCOM enthusiastically participated in it. They visited Rajiya Vasthitha Madhyamik School, Holi Village and spread awareness about 50 girl members of the school. School Principal Mrs. Sudesh and Mr. Rishabh Jain along with all staff members cooperated with us to conduct this event.

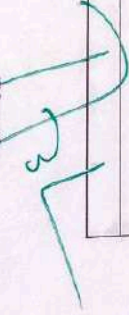

Our students started with brief introduction about healthcare by showing posters, charts which they made and created awareness about menstrual hygiene and also stressed on usage of sanitary pads and the importance of its proper disposal. We taught them the harmful side-effects of not ensuring personal hygiene. At the end we conducted a Q&A session where the girl students asked us any question or queries that they had. We also asked them to spread the message of helping girls during their menstrual cycle to their neighbourhood.

Summary Report

24th November, 2021

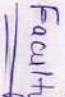

Awareness Campaign - 'Drive On Cleanliness'
MMIM has organized awareness campaign about drive on cleanliness at Sarakpur Village. The main purpose of this programme was to spread awareness among the villagers about the significance of cleanliness and its benefits. The students of MBA, BB and B.COM enthusiastically participated in it. Even teachers were the essential part of it. They visited Sarakpur Village and spread awareness to about 100 people of the village.
50 students started with showing with posters, slogans and a powerful rally to motivate the villagers to clean the drainage systems of the village, aiming to fulfill the Mahatma Gandhi's vision of Clean India. We gave a message that cleanliness is the essential part of healthy living. It is everybody's responsibility and on should keep themselves and their surroundings clean and hygienic.

जागरूकता अभियान - 'स्वच्छता पर अभियान'
एमएमआईएम ने सरकपुर गांव में स्वच्छता अभियान के बारे में जागरूकता अभियान चलाया। इस कार्यक्रम का मुख्य उद्देश्य ग्रामीणों के बीच स्वच्छता के महत्व और इसके लाभों के बारे में जागरूकता फैलाना था। इसमें MBA, BBA और B.COM के छात्रों ने उत्साहपूर्वक भाग लिया। यहां तक कि शिक्षक भी इसका अहम हिस्सा थे। उन्होंने सरकपुर गांव का दौरा किया और गांव के लगभग 100 लोगों में जागरूकता फैलाई। महात्मा गांधी के स्वच्छ भारत के सपने को साकार करने के उद्देश्य से 50 छात्रों ने पोस्टर, स्लोगन और ग्रामीणों को गांव की जल निकासी व्यवस्था को साफ करने के लिए प्रेरित करने के लिए एक शक्तिशाली रैली के साथ प्रदर्शन शुरू किया। हमने संदेश दिया कि स्वच्छता स्वस्थ जीवन का अनिवार्य हिस्सा है। यह हर किसी की जिम्मेदारी है और खुद को और अपने आस-पास को स्वच्छ और स्वच्छ रखना चाहिए। इस अभियान में सरकपुर गांव के सरपंच ने भी बढ़-चढ़ कर हिस्सा लिया।

प्रतिभागियों की सूची:

- 1 डॉ. सुमन गुलिया, सहायक प्रोफेसर, एमएमआईएम
- 2 डॉ. वैविता प्रिया अरन्हा, सहायक प्रोफेसर, एमएमआईएम
- 3 सुश्री आरती कम्बोज, सहायक प्रोफेसर, एमएमआईएम

Awareness Campaign – 'Say No To Crackers'

Diwali is known as the festival of lights, and depicts the victory of light over darkness.

MMIM organized one day awareness campaign about no crackers on the eve of Diwali. The Faculty Coordinators and students of MBA first and second year enthusiastically participated in it. They visited Mavericks International School, Mullana and spread awareness to about 500 students of the school.

Our students started with showing posters which they made and created awareness about harmful effects of crackers on the environment and also stressed on the importance of reducing the impact of air pollution, noise pollution and water pollution. We gave a message of not harming any species including animals, birds and insects and encouraged people to celebrate green and eco-friendly Diwali. We organised a quiz for the school students and all of them participated very eagerly as we provided them with chocolates and toffee as rewards. We also asked them to spread this message to their neighbourhood.
