Dear Prof. Sunil

Greetings from Infosys.

As you are already aware, we have successfully conducted the second round of HackWithInfy 2019. Total 109 participants have qualified for the Grand Finale. All the finalists have also won a pre-placement interview opportunity for the role of a Power Programmer at Infosys.

While these 109 finalists have emerged as the top coders of the competition, there were also some other participants who performed exceptionally in Round 2. We believe these top participants have the skills required to join us at niche technical entry-level roles. Therefore, we are happy to announce that selected top participants from Round 2 of HackWithInfy have won a pre-placement interview opportunity for following roles at Infosys:

1. **Role of a Power Programmer:** Power Programmers are programming 'polyglots' who are experts across multiple technologies and play the role of a full stack developer in complex engineering projects at Infosys.
2. **Role of a System Engineer Specialist:** It is a niche technical role at Infosys that entails working with cutting-edge technologies and a constant focus on helping our clients navigate to the next in their digital transformation journey.

Please find attached the list of students from your institute who have won a pre-placement interview opportunity for one of these two roles through Round 2 of HackWithInfy 2019. We hope selected student will make the most of this opportunity.

Each selected student will be informed individually through mail. We will shortly inform you about the details (date, time and venue) of the interviews. In case of any query, please get in touch with the regional recruiter.

We are making sure that the world gets to know about HackWithInfy 2019! So please encourage your students to follow #HackWithInfy on Twitter, Facebook, and LinkedIn.

We look forward to your support. Thank you!
